

Now What Can I do to be a “Part of the Solution”?

Invite your area’s Inspection, Permits and Licensing (IPL) Inspector to your association’s meeting.

This is an excellent way to introduce the inspector to members of your association. It provides the membership an opportunity to learn how the process works.

Put an IPL story in your association’s newsletter.

Many associations print newsletters. This is an excellent way of communicating with many of those folks who may not be members, but still receive your newsletter. It is a great communications tool for updating residents about properties identified for violations.

Request a ride-along with your area’s IPL Inspector.

In an effort to get a clear understanding of the role of the inspector, IPL offers ride-alongs. Those wishing to participate need to contact their area’s IPL Inspector to schedule a date/time.

Attend other trainings offered by the Department of Neighborhoods.

A copy of future Neighborhood Leader’s Trainings are including in your registration packet.

Attend the monthly Mayor’s Community Conversation (MCC).

MCC’s take place the third Monday of each month at various high schools throughout the Metro area. A copy of the dates and locations will be in your registration packet.
